

Worldwide Distribution via Satellite and IP Streaming

SRN is one of the largest program distributors with hundreds of clients reaching over 3,000 stations nationally. We use the XDS Pro receiver platform to deliver programming from network to affiliate stations over both satellite and IP feeds.

Salem Program Distribution

State-of-the-Art Network Operations Center

SRN's Network Operations Center (NOC) is staffed 24/7 with network operators and producers to provide dependable tech support for our partners and affiliates while connecting your broadcast direct to your audience.

Satellite and IP Audio Delivery

SRN utilizes the XDS Pro receiver platform to deliver content to over 3,000 affiliates worldwide over both satellite and terrestrial (IP streaming) platforms. With affiliates in every city/market nationally, SRN covers the nation.

Studio and Podcast Production

Let SRN produce your programming. Connect to one of our production studios from your home, studio, or while on the road and we provide the cloud studio. Our in-house producers will play your audio content, screen guests and callers, then produce for podcast and/or deliver the program direct to stations or listeners. Whether it's live or pre-recorded, SRN delivers.

Competitively Priced

SRN provides program distribution as well as live-assist production for your radio program or podcast at the most competitive rates with the most talented staff. Every program is different—let SRN customize your broadcast!
